

AQSS IFSS-Series - High Efficiency Stainless Steel Filters

AQSS Series - high efficiency sediment filters. Excellent for pre-filtration in commercial and industrial settings to protect water filtration systems and other equipment against sediments or to facilitate water intensive production processes.

Application:

- commercial laundry facilities,
- restaurants,
- school, kinder gardens, hospitals.

Product Information:

Part Number	AQSS-1	AQSS-4
Connection adapter	1MBSP	3" kolnierz
Working Temp. °C	2 - 98	2 - 98
Pressure Drop (PSI)	6 / 12 ¹⁾	6 / 16 ¹⁾
Nominal flow (m ³ /h)	3.5 ²⁾	33 ²⁾
Max. flow (m ³ /h)	10 ³⁾	82 ³⁾
PP fiber filter cartridge (height x qty.)	20" x 3 ⁴⁾	40" x 24 ⁴⁾
Dimensions (height x diameter)(cm)	50 x 20	180 x 60

¹⁾ nominal flow / max. depends on contamination level and pressure of inlet water,

²⁾ nominal flow @ 4 bar and linear velocity of water 2 m/s,

³⁾ max. flow @ 10 bar and linear velocity of water 5 m/s,

⁴⁾ 20 mic. each individual filter
